RESTOCKING THE SEA.

A Floating Fish-Hatchery—Trial of the "Fish-Hawk"—The Apparatus and Methods Employed.

From the New York Times.

Yesterday, at Wilmington, Del., a first trial was made of the Fish-Hawk, a steamer built by Messrs. Pusey & Jones, for the use of the United States Fish Commission. The Fish-Hawk is an iron steamer of some 500 tons, 150 feet long, 27 feet beam, with twin screws, and the hull is encased with wood. The steamer will be commanded by Lieutenant Tanner, United States Navy, the efficient officer who had the Speedwell in charge last year at Provincetown, when she was in the service of the United States Fish Commission. It should be stated that the idea of a vessel in which fish-hatching could be prosecuted is due to Mr. T. B. Furguson, of the United States Fish Commission, and Commissioner of the Fisheries of the State of Maryland, who first successfully carried out this plan in the waters of North Carolina and Maryland. It is quite manifest that this methed permits not only of great extension in hatching fish, but adds to the facilities of

TRANSPORTING EGGS OR YOUNG FISH.

The fish can be caught by the men employed in the service, and once the eggs secured, the hatching can be carried on on shipboard by means of apparatus, where power is wanted, such as for obtaining a constant flow of water or motion. It is also possible by means of a steamer, to secure eggs in certain rivers or bays, hatch them, and carry them hundreds of miles to other points of delivery or distribution. To accomplish this, and to make room for such special apparatus there is an open space on the main deck of the Fish-Hawk, forty by twenty-seven feet. Here will be placed the conical-shaped vessels, through which will pour continuous streams of water, which movement is absolutely necessary when shad eggs are to be matured.

ANOTHER MECHNICAL DEVICE,

which is to be put in place, is a system invented by Mr. Ferguson for the same purpose. Cylindrical vessels, with wire bottoms, by means of projecting beams, which stand out from the sides of the vessel, plunge these vessels containing the eggs into the water, and withdraw them by means of a peculiar cam, which movement will be given by machinery. An agitation is necessary for shad egg, with change of water, and as these eggs are heavier than water, the vessels containing them are lifted slowly, so as not to break the tender eggs, and plunged into the water again more suddenly. The same method will be tried with the eggs of the cod, only as these eggs are lighter, they require to be buoyed up, the reverse movement will be employed.

THE FISH-HAWK

will be roomy enough to carry some twenty officers and hands, with additional space for such complement of men as may be requisite for securing spawning fish. This vessel was contracted for in June last for $45,000. With the present augmentation in the price of material, she would certainly cost some fifty per cent. more. The Fish-Hawk, equipped as she is for this special work, marks the most notable advance that has yet been made in practical fish culture, and, no doubt, her plan of construction and methods employed in hatching fish, looking toward the production of fish-food in the future, will be copied by other countries. The vessel is amply provided with lifting engines, as no small part of her duty will be to work dredging apparatus.

THE ATESIAN WELL QUESTION.

No adequate test has ever been made between the Great Salt Lake and the sea for artesian water. That the hundreds of millions of acres of fine land which could be reclaimed by that means should have attracted so little attention from philanthropists and capitalists is very strange. The demand for room is so large, however, and the country is filling up so fast that the sage-brush deserts must soon be called for. We confidently expected to have Congress make an appropriation to sink a well somewhere in Western Nevada, but Congressman Daggett seems to have switched off on to something else, and all the money will be put in in Kansas and Colorado. We would, therefore, make a suggestion that a well be put down at the State Prison grounds at Carson by convict labor. It would be necessary to buy a very little material and machinery, but not enough to figure in the appropriation bills. A couple of horses would furnish power. The augers could be kept sharp by the convict smiths. If a well was found there would be a profitable market for every gallon of water, either in Carson or on the land around the prison.

A WOOL CLEANING MILL.

Western Nevada and eastern California are becoming famous for sheep. The wool clip is growing heavier year by year, and the limit is still far from being reached. It is estimated that an average of fifteen per cent. more could be made out of our wool if it was cleaned before being sold. On this subject the *Courier Californian* says: "One great saving would be in the transportation. The impression among many is that the wool brings more because weighing more when oily and dirty. It does not seem possible that the most ignorant sheep-herder could advance such an idea, but it is done by sensible sheep-owners. The fact is, the buyer makes the most liberal allowance in his favor when he buys that class of wool. He presumes upon the dirt and grease to run down the water-power of the Truckee river such an enterprise could be conducted in the most economical manner. The water of the river is soft as rain water, and it so much the more valuable for cleansing purposes. The dirt in many instances is equal to two-thirds the gross weight of the bale, on all of which a high tariff of transportation is paid. If the wool-growers would form an association, as is being done in nearly every county in the state, they might accomplish the purpose."

FATAL CARELESSNESS.

"While hunting ducks on Jordan river opposite the city last evening, John Avery, in dragging his gun along carelessly, received the contents in his face, killing him instantly." Such is the brief story told by a telegram from Salt Lake. How intelligent people can be so careless with firearms as many are is a never-ending wonder. Nine-tenths of the gunning "accidents" result from gross carelessness. A man who handles a gun properly can never shoot himself or anybody else, unless intentionally. The one simple rule for handling the gun is never, under any circumstances, to allow the muzzle of the piece to point towards any human being. And beware of "unloaded" guns. They are the most dangerous. By way of rounding off this paragraph, here is a news item from Arizona: "The eldest son of a rancher named Mahan, living at Beaver Head, while handling a revolver last Monday week, accidentally discharged it, the bullet passing through his brain, and killing him instantly."

DE LESSEPS.

Count Lesseps is receiving considerable attention in San Francisco. A public reception has been arranged for him. As the projector and engineer of the Suez canal, Lesseps has won considerable distinction. It is somewhat doubtful whether he will accomplish his scheme for a canal across the Isthmus of Panama. His project is for a straight cut from ocean to ocean, through earth and rock all the way. The Nicaragua route is more favored by the press of this country. It offers the advantages of a navigable lake and river for a long section of the route. It is probable that an inter-oceanic canal, by one or the other route, will soon be constructed.

Lesseps will remain in San Francisco a few days only, and will return directly to New York, whence he will sail for Europe.

EDITORIAL NOTES.

It reads rather funnily that the buffalo have eaten up nearly all the hay about Fort Keog, Dakota, yet "Dr Burleigh, the affable ex-Delegate" from that Territory, gives the assurance that such is the fact. When a man wants buffalo meat in the Yellowstone country this season, he steps to the house door with his rifle, selects his victim from the herd around the hay stack, and blazes away. The buffalo are said to be breaking down all the rail fences, and barbed wire will have to be used to keep them out of the fields. As we have the word of an "affable ex-Delegate" for all this, there should be no doubt of its truth.

The severity of the present winter has caused great loss of cattle and sheep in Oregon and British Columbia. It is stated that almost all the stock in B. C. have perished. The latest from Lake county, Oregon, is that cattle are dying in great numbers; even those that have been fed are perishing from exposure. Cattle raising is a very profitable business when the conditions are favorable, but has its heavy losses like all other kinds of business in which there is a chance for large profits. The stock men of Washoe county have, however, every reason to be satisfied this year.

A few evenings since, the son of a prominent citizen of Albany, Oregon, shot and killed the son of another citizen, also prominent. A quarrel occurred between the young men in a saloon, resulting in the fatal shooting. They had previously been on friendly terms but—there was a woman in the case. What a miserable practice this carrying of pistols is. It is responsible for most of the homicides which occur on this coast. In this State, especially, revolvers are habitually carried by many persons, often mere boys. The practice should be frowned down. It is cowardly and vicious.

Seward has been emphatically requested by the Government to resign his position as Minister to China. His official accounts are very crooked. John F. Swift of California has been recommended by the California delegation as a successor to Seward, but no appointment has yet been made. It is feared at Washington that a Californian will not do for a Minister to China.

Communism has begun to crop out in Canada. It is known that a secret [illegible] Communists exists in Montreal. The Communists of Montreal have gently hinted to several editors that, if certain communications are not published in their papers, the editor's houses will be burned.

Another embezzler has been found out. Wm. D. Hilton, formerly superintendent of the Providence and Worcester railroad, confesses that he has issued forged paper to the amount of $80,000. His operations have been going on for two years.

President Hayes' firmness is shown, in a small way, in the summary dismissal of Major Reno. The greatest pressure, social, official and professional, was brought to bear to save the offender, but it was of no avail.

Major Reno neglected to avail himself of the permission to resign granted him by the Government. Therefore the Government has figuratively kicked him out of the army.

There are no Tilden men in Louisiana. The Democrats of that State are strong for Hancock. They would sooner have Grant than Tilden. Louisiana Republicans are for Sherman.

Another Account of the Merced Shooting Affair.

MERCED, March 17.—Hammond attacked the boy, James Tucker, with a blacksnake whip while the latter was in bed, breaking the fastenings of the door to get into the room. Several heavy blows were struck with the whip, the boy at the same time begging and pleading innocence of what he was accused. Hammond finally ceased to beat the boy and went into the yard, threatening to take the boy away, and the latter agreeing to go with him. Hammond again approached the door and pushed it open, when the shot was fired from a double-barrel gun, the charge entering the cheek and jaw, carrying away the teeth, part of the tongue and the end of the nose. Tucker came into town at 1 o'clock P. M., and gave himself up to the sheriff. Dr. Washington, who attended the wounded man, returned to town two or three hours later and reports the case desperate, if not hopeless. Tucker is in jail awaiting the result of the wounds of Hammond.

No tartar can encrust them, no canker affect the enamel, no species of decay infest the dental bone, if SOZODONT is regularly used. THE MASQUERADE BALL.

A SUCCESSFUL ENTERTAINMENT FOR THE BENEFIT OF THE REFORM CLUB.

List of the Maskers—Award of Prizes—Net Proceeds, Etc.

The masquerade ball last evening proved a great success, both financially and otherwise. The maskers began to arrive long before the hour for dancing. Some of them arrived so early that the reporter failed to intercept them at the door, and hence the names of a few of those who appeared in costume do not appear in the subjoined list. There were no very costly costumes worn, and few of them were remarkable for taste or beauty. Most of them were choosen for their oddity, and with a view to concealing the identity of the wearers. Some of the characters were well sustained. Those who appeared in the role of "domino" best kept their incognito. Among the best sustained characters and most noticeable maskers, were Mrs. Kinkead as "Old and New," a figure with two faces and four arms; Mrs. Lovejoy, as a washerwoman, who entered into the spirit of her part and treated all who accosted her to soap suds and badinage; and "the double-headed woman," personated to the life by Mrs. Sessions and Miss Polly Thomas. All the young ladies were deserving of special mention, but the limits of space will not allow of a detailed description of their costumes. As for the men, they did not display any originality worth mentioning. Some of them in comic costumes went in for plenty of fun and got it, affording the spectators much amusement by their antics. The gallery was filled with spectators who seemed to get considerable enjoyment out of the affair. At 11 o'clock a call was made to unmask, and then dancers in plain dress were admitted to the floor. The prizes were awarded at 11 o'clock by the judges appointed for the purpose, who were J. C. Hagerman, D. McFarland and John Wilson. The prize for the best lady's costume, a set of toilet bottles, was taken by Mrs. E. L. Hickox of Virginia. H.St Amand was awarded the prize for the best Gentleman's costume, a pair of sleeve buttons. Mrs Lovejoy carried off the prize for the best sustained character, a silver napkin ring. Mrs. Sessions and Miss Thomas ("the double-headed woman") received the cuff pins, the prize for the best sustained character.

An intermission of an hour was given for supper, after which dancing was resumed and kept up until three o'clock. Soon after, the lights were out, the hall deserted, and the tired dancers were sleeping the heavy sleep of the gay and festive children of the world, to awake on the morrow and resume the more serious masquerade of every day life.

Mrs. Chapin, Mrs. Sessions, and the other ladies concerned in the management of the ball, deserve the credit which always attaches to success in the face of obstacles and discouragements. The net profits of the ball exceed $160. The ladies propose to devote this sum towards the purchase of a piano for the Reform Club.

The following is the list of those who appeared in costume:

A Fire and a Runaway.

The whistle of "48" raised the town at noon to-day and a crowd followed her up the track to the section house west of town. The alarm was caused by a fire, discovered by Mrs Plumb, in the house used by seven Chinamen for a sleeping place. The fire boys turned a stream on, and in a few minutes it was put out. Just as the spectators were turning towards town, A. J. Clark's horse was seen dashing through Captain Bragg's lumber yard at a lively pace, with A. J. about four jumps behind him shouting "whoa." The horse ran across the track, making a short turn to the right. The centripetal motion proved too strong for the centrifugal and horse and wagon flew off at a tangent, turning completely over. A dozen men assisted to unhitch the horse and right the wagon. With the exception of a sprung axle no damage was done.

Virginia Street Crossing.

The petition to the railroad company to plank Virginia street, is being very generally signed. It would be an immense improvement to the town, and would not inconvenience the company in the least. It is only occasionally that the cars are standing there now, and if it was necessary for the train men to use that part of the track, their right to do so would not be at all affected by the planks. It is hoped that the officers of the company may be led to consider the petition favorably. It would tend to increase the kind feeling which has been growing between the people here and the road.

A Freak of Jack Frost.

A beautiful icicle has been built up by the spray from the fountain in front of the residence of Ross Lavallier at the Brunswick mill. The water seems to be turned off, but from a leak at the top of the pipe a minute stream shoots up that freezes as fast as it falls. The result is a pillar about six feet high and one in diameter, with a top spreading out into a huge white rose. The monument seems to have built up in three sections, as at regular intervals there are rings entirely around it composed of drooping bunches of filagree frost work. The carving of such a thing in marble would immortalize an artist

A Novel Office.

The ranchers on Carson river use water in irrigating their crops and the quartz mills below them use it for running their stamps. A great many conflicting claims exist, and considerable inconvenience has been felt in times past on account of scarcity of the supply. An agent is kept constantly engaged to see that all parties get their proportion and prevent waste. He travels up and down the river and watches the gates and dams everywhere. Since the present incumbent, L. M. Coffin, has been in the office, everything has gone on pleasantly.

A Complimentary Benefit.

Mrs. W. W. Garrison, the brilliant and accomplished singer, has been tendered a complimentary benefit by her many friends and admirers in Reno. She has accepted, and will appear at the Reform Club Hall on Virginia street, Friday evening, March 19th. She will be assisted by the best local talent. Mrs. Garrison was on the stage for years, and has been a great favorite on the whole Pacific coast. Tickets will be fifty cents. All should hear her.

The Bodie Road.

The surveyors on the Bodie road have orders to rush things and get all their estimates in to Mr. Yerington by the first of the month. D. O. Mills is coming out about that time and will go over the line with Yerington and engineers James and Oliver. The Booth, Bliss & Yerington combination has been broken and if the road is built it will be by Mr. Mills.

PERSONAL.

Johnny Hobart is running a train in Central America.

J. C. Hagerman left for Bodie this morning. He will be absent eight or ten days.

M. L. Chandler is in Reno on his way to Carson to do some land business.

Mr. Kirkpatrick, agent for the Continental Oil Co., is in Reno and will remain a few days. He has just returned from Victoria, B. C.

Lawyers C. S. Varian, Webster and Rankin, Roger Johnson and several other Reno lawyers are still in Carson in attendance on the Circuit Court.

— Mr. Waldo will not have an address ready for delivery at the Reform Club meeting this week. T. V. Julien will address the club next Saturday evening. Subject: "Ancient Civilization."

The Heroine of A Late Fire.

Miss Emma Gibbs was the first to discover the fire that broke out in the rear of Mr. Gooch's house near the Court House about 11 o'clock one night last month. Living close by, she saw the fire from her window, and started for the Gooch house with a pail of water in her hand, giving the alarm as she went. She had thrown several buckets of water on the fire and had it nearly subdued before any one else turned out. The house was insured in the Fire Company of North America. The facts above stated came to the ears of D. A. Bender & Co., the local agents, only a few days ago. They immediately advised the company of the gallant conduct of Miss Gibbs, and yesterday the young lady received a very complimentary letter from the Company, inclosing a cheque for $25 in recognition of her prompt action in suppressing the flames.

The Fire Department of Reno should elect Miss Gibbs an honorary member.

Liens on the Steamboat Ditch.

A hundred and twenty-five liens have been filed on the Steamboat Springs Canal. A hundred and eleven by Chinese laborers, footing up $10,300, and ten by white men, $6,000. In addition to these, J. C. Hampton & Co. have a claim of $5,500 for supplies, and L. W. Lee one of $4,500. All these claims will be brought in by J. C. Hampton & Co., and suits will be commenced next week to close them. The suits will be brought in San Francisco by Hubbard, Hampton's partner.

No Friday Service.

As Mr. Jenvey will be in Virginia City to-morrow attending a meeting of the Diocesan Standing Committee, of which he is a member, the usual Friday evening service will be omitted. He will return in ample time for the usual Sunday services.

Public Notice.

Notice is hereby given that John Hayes is not in my employ, nor has he been for the last year, nor ever will be again. And what is more, I have no agent taking orders for trees and plants, nor ever will have. So if any orders are taken through the country and filled with trees with dead roots, they will not be represented as filling my orders, for I shall take my orders myself.

To the Public.

The "Public Notice" in the GAZETTE and "Journal," signed Stephen Connor, with regard to my not being in his employ, is a malicious slander. I left Connor's employ a year ago of my own accord and I want nothing more to do with him. JOHN HAYES.

JEWELRY

$75.00 worth for $15.00,
—(AND A(—
Solid Abyssinian Gold Watch
FREE! FREE!! FREE!!!

☞ The above offer is genuine, although at first sight you would consider it impossible. We will explain: Since we first established our business here, March 1st, 1878, we have paid particular attention to the buying of Bankrupt and Auction lots of Jewelry and Watches often buying at as low as one-tenth their value, and in no instance have we paid over one-sixth the manufacturers' price. Since starting we have always been able to dispose of these goods in Chicago and through our regular customers throughout the country at nearly regular prices, as fast as we could procure them, but owing to the large number of failures among the heaviest dealers and manufacturers throughout this and other countries during the months of June, July and August (the time when the jewelry business is stagnant), we have now on hand an immense stock of the most desirable goods we have ever handled, and which we have bought at lower prices than ever before. In order to dispose of this entire stock in the most speedy manner possible, and make room for new ones which we shall continue to buy, we have hit upon the following novel plan:

We propose to give you a list of the most desirable of these goods, giving opposite each article its regular retail value, and sell to you at the rate of Five Dollars' worth for $1. For instance, on receipt of 65 cts. we will send you, POSTPAID, any article to the value of $2 50; on receipt of $1, articles to the value of $5, and so on throughout the entire list. Below we give a list of the most valuable of these goods.

From personal inquiry and on the recommendation of the city press, we think our friends can do no better when wanting goods in that line. Give them a trial."

The American Stockman, Sept. 11, says: "We believe this institution perfectly sound and reponsible, and consequently persons need have no hesitation about sending for what they desire."
